## Towards Business Process Improvement

The world leaders in Intelligent Capture & Exchange and Automated Invoice Processing, Kofax and Basware, cordially invite you to a morning seminar. During this session, you will be introduced to industry best practices and leading solutions for invoice processing. Discover how automated invoice processing increases efficiency, reduces costs and improves your relationship with your suppliers.

We will demonstrate the most comprehensive automated invoice processing solution, powered by intelligent scanning and data extraction, as well as automatic matching and exception handling.

The seminar is free of charge and specially designed for Heads of Finance or Shared Services, Accounts Payable professionals and Business Process Managers.

# Agenda

## Dialogue: Business Case

We will discuss real life challenges faced by one of our customers. Discover how our automated invoice processing solution enabled them to achieve end-to-end control, compliance and visibility. Our customer saved millions of dollars with the solution in place!

Learn how our customers in industries like financial services industry (FSI), utilities, manufacturing, retail, healthcare, government agencies, automobile, shared services centers (SSC), and etc. – achieved world class performance through a holistic approach to invoice processing and continuous improvement through KPI measurement.

## Solution Demo: Automated Invoice Processing

- Scanning with automated image enhancement
- Automated data extraction from invoices in all formats
- Matching against purchase orders or contracts
- Invoice workflow for non-matched invoices.
