Release Notes

This document contains the release notes for Kofax Export Connector for FileNet Content Manager. This export connector copies document images, OCR full text files, Kofax PDF documents, eDocuments, and writes data from Kofax Capture into FileNet Content Manager.

Important In Kofax Capture 8 and earlier, the term “release script” was used to name the scripts and refer to them in the product and the user documentation. In Kofax Capture 9 and later, the term “release script” was replaced with “export connector.” This version of the product for FileNet uses “export connector” throughout the user documentation, while the term “release script” may still appear in the user interface. Also, “Ascent Values,” the deprecated term for Kofax Capture Values, may still appear in the user interface.

Please read these release notes carefully, as they contain information not included in the Kofax Capture Help or other documentation.

New Features

This section contains information about new features in Kofax Export Connector for FileNet Content Manager.

Use CMIS Repository ID

Select this new setting on the General tab to use the CMIS ID as the Document Repository ID and to maintain compatibility with current processes that use the CMIS ID. By default, this setting is not selected.

Resolved Problems

The following issue was reported for a previous version of the product and fixed in this release.

Failed to Upload Open XML Documents (.docx and .xlsx)

After upgrading to the export connector for FileNet Content Manager 5.0, errors were encountered while Microsoft Office Open XML documents were exported. (SPR00095889)

Additional Resources

The following additional resources will help you get the most from your Kofax product.

Getting Help for Kofax Products

Kofax regularly updates the Kofax Support site with the latest information about Kofax products.

To access some resources, you must have a valid Support Agreement with an authorized Kofax Reseller/Partner or with Kofax directly.

Go to <http://www.kofax.com/support> for:

- Access to product knowledge bases
Click **CAPTURE: SUPPORT KNOWLEDGE**.
- Access to the Kofax Customer Portal (for eligible customers)
Click **CAPTURE: SUPPORT INTERACTIONS** and log in.
To optimize your use of the portal, go to the Kofax Customer Portal login page and click the link to open the *Guide to the Kofax Support Portal*. The guide describes how to access the portal, what to do before contacting the support team, how to open a new case or view an open case, and what information to collect before opening a case.
- Product information and release news
Click **Product** and select a product name and version.
- Downloadable product documentation
Click **Documentation** and select a product name and version.
- Access to support tools
Click **Tools** and select the tool to use.
- Information about the support commitment for Kofax products
Click **Options** and select **Kofax Support Commitment**.

Use these tools to find answers to questions that you have, to learn about new functionality, and to research possible solutions to current issues.
