Release Notes

These release notes give you late-breaking information about Kofax Export Connector for Medical Claims. Please read this document carefully as it contains information that is not included in other documentation.

Known Issues

This section contains information about known issues in the product.

Conditions and Mappings Removed Unexpectedly

On the Output Data tab, you must create at least one class before adding conditions or service line mappings; otherwise, they are removed automatically without warning when you create the first class. (SPR00096052)

Mapping Fields Not Available in Document Classes

The following list shows fields that are not available by default in Kofax Capture document classes created by the KTM Medical Claims Add-on Pack, even though the fields are available in CMS and UBO4 mapping files. If you manually add any of these fields to your document classes, they are fully supported. (SPR00074796)
