Tungsten Equitrac

Minimize printer security risks with best-in-class, user-centric print management capabilities

Secure and Intelligent Print

According to research firm Quocirca, 63 percent of businesses surveyed admit to experiencing one or more print-related data breaches. As such, it's imperative that businesses secure their printer networks as BYOD demands, regulatory pressures and the possibility of fines are heightened. Tungsten Equitrac delivers the most powerful and flexible print solution on the market. It provides your organization with a wealth of unique features that minimize network security risks and the versatility needed to maximize print cost savings and impact your bottom line. Its central print management system works across the most comprehensive range of MFP brands and models, business systems and mobile devices. Tungsten Equitrac integrates seamlessly with the Tungsten ControlSuite platform; this enables businesses to transform their entire enterprise into a secure, digital office experience that manages the way information is printed, captured and routed, thereby increasing workforce productivity.

Key Capabilities

Data and document security

Powerful security features including watermarking and user information/time stamps help businesses improve their security and compliance posture.

Extended mobile capabilities and additional hardware

With multiple ways of authenticating using a mobile device, including NFC/Bluetooth authentication, businesses can help secure print jobs from their mobile workforce.

"We've seen a cost savings of more than 15% in total print expenses."

Corporate Services Manager,
Ancor

Hybrid Print Control
