

Kofax Invoice Capture Service™ “Better Together”

PARTNER PROGRAM

No Fees. No Risk. All Reward.

It's not every day you come across something this simple:

Turn your customers on to Kofax Invoice Capture Service (ICS) and put money in your pocket. If they're Microsoft Dynamics NAV or D365 users, they already have everything they need. ICS is built right in. All you have to do is turn it on!

Why 'Better Together'?

Help your Dynamics NAV and D365 customers start processing invoices faster, more efficiently and more cost-effectively than ever. Partners like you can implement ICS for them in as little as 10 minutes. Then you'll start tapping the easiest revenue stream imaginable.

How it works:

- ◆ Sign the Partner Referral Agreement and send in for counter signature
- ◆ Register your customers to insure your organization is the Partner of Record (POR)
- ◆ Payments are tracked by ICS and easy to verify
- ◆ You receive a quarterly check for your customers' Paid Usage
- ◆ No limit on customers you can register—no time limit on payments

Why ICS?

Microsoft has embedded Invoice Capture Service into Dynamics NAV since 2016 and D365 (Financials) in 2017. ICS allows your Dynamics NAV and D365 customers to capture, extract and verify invoice data automatically—and directly from the familiar Dynamics interface.

- ◆ **No installation required**
Implementation is fast and requires no hardware or software investments or IT assistance; ICS can be configured from inside of Dynamics NAV and D365.
- ◆ **Cost-efficient**
ICS is a customizable, pay-as-you-go solution that doesn't require additional investments in third-party software or hardware upgrades.
- ◆ **Built to scale**
ICS can easily handle increasing invoice volumes without the need for any upgrades or additional investment.
- ◆ **No customer commitment**
First-time users can test ICS for up to 75 invoices per month at no charge. No contracts or commitments—they may quit at any time.

Why Now?

ICS represents an immediate and golden opportunity for partners. Why are you missing out? The BetterTogether partner program involves no risk or sign up fees, or any work from you!

Join the growing list of partners who are leveraging ICS and Dynamics NAV/D365 to help customers unlock incredible AP automation savings.

- ◆ Blueprint your customer processes and sell your re-engineering services for larger engagements
- ◆ Deploy NAV/D365 workflow for process automation
- ◆ Integrate with other ISV tools and systems as needed

**ICS is waiting inside NAV/D365.
More wallet share is waiting for you.**

What are you waiting for?
